

Pre-built Outdoor Design Solutions

Typical cross section for concrete pad installation

(TOP VIEW)

Note: Although the structural integrity of a Unilock Pre-built unit is not dependant on a concrete foundation it is highly recommended that you install the unit on a concrete foundation as shown in the diagram to prevent any possible settlement and to facilitate rapid installation.

Unilock reserves the right to change model designs, accessories and colors without notice. Unilock will not be responsible for improper use or handling that results in property damage.

Some models may not be exactly as shown. Check local building codes and regulations prior to ordering and installing wood-burning fireplaces.

Guarantee: The standard Unilock Guarantee applies to the structural integrity of the Pre-built units. (See Unilock literature for details.) Third party grills and fireboxes carry their respective manufacturer's warranty and may change without notice. Fireplace inserts and grills are UL- approved.
